

World Heart Failure Society

2026 | Congress

HOLIDAY HOTEL - SARAJEVO

**Sarajevo,
Bosnia Herzegovina**
October 23-25, 2026

World Heart Failure Society 2026 Congress

Dear Colleagues,

On behalf of the **World Heart Failure Society (WHFS)** and the **Association of Cardiologists of Bosnia & Herzegovina**, it is a great honor to invite you to the World Heart Failure Congress 2026. This premier event will be held in the historic and culturally vibrant city of **Sarajevo, Bosnia and Herzegovina**, from **October 22–25, 2026**.

The scientific program is meticulously designed to bridge the gap between global clinical evidence and daily practice, covering everything from foundational medical therapies to the cutting-edge integration of digital health tools.

Scientific Program Highlights

Day 1: Foundational GDMT & Comorbidities

- Optimizing the "Fantastic Four" (ARNI, Beta-blockers, MRA, and SGLT2i) and managing diuretic resistance.
- Addressing complex comorbidities, specifically the role of GLP-1 RA in HFpEF and the heart-kidney interrelationship.
- Evaluating the latest evidence for intravenous iron replacement and anticoagulation in atrial fibrillation.

Day 2: Valvular Interventions & AI Innovation

- Focusing on the "forgotten valve" with Tricuspid Valve Interventions (T-TEER) and managing RV failure.
- Discussing non-pharmacological advances, including precision exercise prescriptions and AI-integrated early warning systems to prevent hospitalization.
- Re-evaluating "Old Friends": The art of Beta-blocker titration and the clinical reality of Digoxin in 2026.

Day 3: Advanced Care & Emerging Research

- Multidisciplinary management of cardiogenic shock using the SUSPECT CS framework and the Hub-and-Spoke model.
- Abstract sessions highlighting the latest research and practice-changing trials.

We look forward to welcoming you to Sarajevo for this significant international gathering to share knowledge, innovation, and friendship in the field of heart failure.

Sincerely,

Prof. Dr. Mehdi Zoghi

President, World Heart Failure Society
